A NEW GENERATION IN BRAAIS

1200 GAS BRAAI, MILD STEEL/3CR12 BODY, PAINTED BLACK, STAINLESS STEEL FRAME & DOOR

**2026 EDITION**  
NEW IMPROVED DOOR HANDLE

These units comprise a steel braai body to be built into a brick structure, the same as our Built in Charcoal/Wood models.

In addition they have one of our gas grilles offering the advantages of:

- 5 to 10 minute heating time once burners are lit until hot enough to cook
- High heat output burners allowing a large variation in heat output to suit all cooking styles
- Continuous Spark Ignition System for ease of lighting
- Heavy duty Stainless Steel burners ensuring a long lifespan on these
- Durable construction for low maintenance and a long life
- Our unique fat catcher system that drains fat away from the cooking area, enabling healthier cooking and low risk of flare up (where fat catches alight and can burn the surface of the cooking meat)
- Choice of Flame Tamer Plates or Rocks to suit individual tastes
