CANTILEVER

8, 10, 13 & 14 KW SINGLE SIDED

INFINITI 10 KW CANTILEVER UNIT

These Cantilever units use our Convection Box Wood Stoves suspended from a Cantilever Stand to provide a stylish modern looking wood stove. Available in 4 sizes.

8/10/13 Kw units have a dual air control system & rear mounted glass.

CANTILEVER	HEATING CAPACITY (m³)	a	b	c	d	e
8 KW	320	667	1104	931	334	188
10 KW	400	750	1104	931	375	188
13 KW	520	870	1104	931	435	188
14 KW SINGLE SIDED	560	840	1104	988	420	163
14 KW SINGLE SIDED BBG	560	840	1104	988	420	153

NEW 14 KW FEATURES

1 TOUCH AIR CONTROL

This single air control is located at the bottom of the door, where it is much cooler to the touch. It easily adjusts air flow in the correct proportions to the top, rear and base of the stove, to maximise efficiency and ensure clean burning - making these units much simpler to use than many other wood stoves.

AIR INLET RESTRICTOR

Easily set to prevent over burning when installed with a long chimney or in high wind areas.

CHOICE OF GLASS

Choice of a Clear Glass at the rear of the door or a Black Border Glass located at the front of the door, for a more sophisticated look.

NEW PULL OUT TABLE

8/10/13/14 KW | FREESTANDING | CANTILEVER | 150 MM DIAMETER FLUE | TOP OR REAR EXIT
